Subject: Re: Gold King Mine release contracting contacts

EPA is committed to working closely with response agencies and state and local officials to ensure the safety of citizens, respond to concerns and to evaluate impact to water contaminated by the Gold King Mine Release. EPA is sharing information as quickly as possible with the public as experts work to evaluate any effects the spill may have on drinking water, public health, agriculture, fish and wildlife.

Please see our website for the latest information: <http://www2.epa.gov/region8/gold-king-mine-release-emergency-response>

Regular updates will be posted as they are available.

Subject: Gold King Mine release contracting contacts

Hello,

I am interested in gaining contact with whom ever is in charge of the emergency response for the Gold King Mine release. I am curious who they may be contracting to preform remediation work. I am a recent graduate of Fort Lewis College with a Geology degree and I'm seeking employment in this field.

Please let me know what you can do for me. Thanks.
